

A Mexico Bird List

(3/15 to 3/29/2008)

MOSTLY IN OAXACA AND A BIT OF D.F., PUEBLA, AND VERACRUZ
Jim Brighton, Bill Hubick, Becky Larson, Colleen Meny.

We observed a total of 259 bird species, including 37 species endemic to Mexico (i.e., those breeding only in Mexico), 17 raptors, 11 hummingbirds, and 30 warblers. I marked the Mexican endemics in **BOLD CAPS**. I started to mark other species of note in bold, but then found that most of the list ended up bolded.
